2. Pronunciation
3. Basic reading & writing skills
4. Overcoming stage fear,
5. Acquiring confidence,
6. Effective conversation & much more...

Learn it the Learners' way!

The Learners' Way:

A Learner is a person who always keeps on learning. He/She never thinks that the knowledge that he/she has is enough. He/She never gives up, no matter how difficult the subject is. He/She strives to beat himself/herself, every single time. Calling oneself 'A Learner' always keeps one humble, ready to change, ready to accept other points of views, flexible and open to all the ideas.

OUR PHILOSOPHY

Learn it the Learners' way!

“

“Learning is a never-ending process of life, however if you learn something once, you know it for a lifetime.”

Dr. Hrishiraje Bhosale
(Founder-Owner)

CEO SPEAK

Learn it the Learners' way!

Our Goals & Objectives

Business Plan

To be a leading professional institution that exemplifies career success through enabling knowledge excellence and developing holistic global citizen .

Strategic Objectives

Bring about a thorough reform in the education system by paving a new path of attitude and learning towards education. This was done specially by using innovative methods of teaching.

Focus Areas

Our Success Stories

Shravani Nalwade

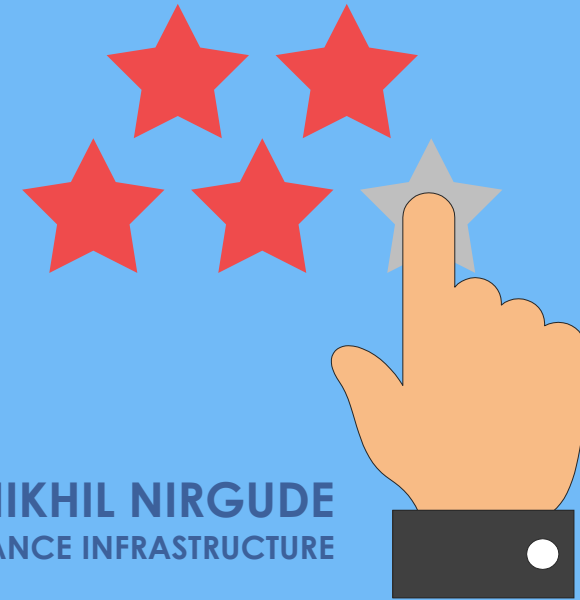

10 State Board, March 2018

I was in the 2017-18 batch at The Learners' Academy. I think that the tests and revision was as crucial as the actual learning. We were given 8 test series of all the six subjects along with regular monthly tests. It was very helpful because I started learning and preparing from the exam point of view. Every test ended up making me more confident about the subject. I don't think I would have scored the same marks without giving the test series.

Girish Shivhare

10th CBSE, March 2018

The series was great. Initially it wasn't easy to solve and score in it, but as the tests got tougher, I ended up getting more and more prepared. What we realized was that majority of the questions that appeared in the test series, did also show up in the actual boards question paper. No test of this series should be skipped as if we score decent marks here, then it means that we are ready to get extraordinary marks in the board exams

NIKHIL NIRGUDE

MANAGER AT RELIANCE INFRASTRUCTURE

I am very happy to be associated with The Learners' Academy. It has delivered all that I expected from it. I would definitely recommend it highly to anyone who wants a good and responsible tutoring and mentoring platform.

Our Success Stories

PRASHANT SHINDE

INDUSTRY EXPERT

Hrishi Sir has always been passionate about teaching with the most modern aids and fun learning simple techniques. The Learners' Academy will definitely prove to be a very fertile learning ground for anyone who gives important to knowledge over role-learning.

DNYANESH SANGDE

BANKER

I have never seen a bunch of students so happy to be learning & experimenting in a tuition class! I am sure that the team of teachers led by Hrishi sir are equally passionate about teaching & learning! A good positive environment helps any student to perform better.

MILIND SALUNKHE

PARENT

As a parent, I am glad to have been associated with The Learners' Academy. It is a great place and the teachers are sincere and know their subjects. I completely believe that Hrishikesh Sir is probably one of the best Physics and Maths teachers that I have ever known.
